## LABOR FORCE PARTICIPATION RATES IN ARMM

(2008 - 2018)

#### TECHNICAL NOTES:

##### Labor Force Survey

is a nationwide quarterly survey of households conducted by the Philippine Statistics Authority (PSA) during the months of January, April, July and October. Specifically, it aim to provide statistics on levels and trends of employment, unemployment and underemployment for the country, as a whole, and for each of the administrative regions. For this release, the data being presented are based on the final results of the October 2017 round of the LFS.

##### Labor Force Participation Rate

is the proportion of total labor force to the total household population 15 years old and over who are either employed or unemployed.

##### Employment Rate

is the proportion of total employed persons to the total labor force.

##### Unemployment Rate

is the proportion of total unemployed persons to the total labor force.

##### Underemployment Rate

is the proportion of total underemployed persons to total employed persons
