## TECHNICAL NOTES

This report presents the performance of the livestock industry of the region in 2019 in terms of volume of production and inventory.

This describes the situation of livestock industry in ARMM by providing comparative analyses of data on production between first quarters of 2018 and 2019, among provinces and among animal types.

### Concept/s and Definition/s

**Volume of Production** - the volume of locally-raised animals disposed for slaughter which include animals shipped-out for slaughter. This is expressed in thousand metric tons, liveweight.
